Subject Re: Records Search

Dear Mr. Montgomery,

I have forwarded your message to Stacie Byas of my NYC staff for a response. Stacie will be in touch with you very shortly.

Please let me know if I can be of further assistance.

Sincerely,

>>> <Montgomery.RobertJ@epamail.epa.gov> 01/27/06 04:12PM >>>
Ms. Fawcett:

My name is Robert Montgomery and I work for USEPA located in the Edison, New Jersey office (732) 906-6934. Currently, I have been assigned to research any association between the United States Military and the Bayonne Barrel and Drum Company, formerly located in Newark, New Jersey. Records of the

Quartermaster General for the following depots would be of interest; Belle Mead General Depot, Somerville, NJ, 1942-1950 and 1940-1954 for the General Depot, Schenectady New York. These records may be found in Record Group 92 and/or Record Group 338.

We do know that Bayonne Barrel and Drum had a contract QM-33742 (OI 10237), dated 30 June 1953, to rehabilitate steel drums and containers for the QM Supply Section, Belle Mead General Depot. Schenectady Depot, and/or other depots may have had a contract regarding the same type of service from this facility. Earlier contracts or information regarding BB&D and/or Export Barrel (merged with Bayonne Steel Drum in approximately 1940) for earlier or later time periods would also be of interest. (Another company that had a relationship with BB&D, Verzaleno Reclamation Plant (drum reclamation) would also be of interest).

Please contact me if you have any further suggestions for research on this matter and if any of the following dates would be preferred for my search, January 30, February 13, 15, 20, 21, 23 or 24, 2006. Again, thank you for your assistance and cooperation on this matter.
